14 **Commission and the Centers for Medicare and Medicaid Services;**

15 **“(3) May adopt data reporting systems that are used in other states;**

17 **report data to the authority; and**

18 **“(5) May not impose unreasonable financial or administrative burdens on ambulatory**
19 **surgical centers or extended stay centers.**

20 **“SECTION 2.** ORS 442.120, as amended by section 7, chapter 50, Oregon Laws 2018, is amended
21 to read:

22 “442.120. In order to provide data essential for health planning programs:

23 “(1) The Oregon Health Authority may request, by July 1 of each year, each general hospital
24 to file with the authority ambulatory surgery and inpatient discharge abstract records covering all
25 patients discharged during the preceding calendar year. The ambulatory surgery and inpatient dis-
26 charge abstract record for each patient must include the following information, and may include
27 other information deemed necessary by the authority for developing or evaluating statewide health
28 policy:

29 “(a) Date of birth;

30 “(b) Sex;

31 “(c) Race and ethnicity;

32 “(d) Primary language;

33 “(e) Disability;

34 “(f) Zip code;

35 “(g) Inpatient admission date or outpatient service date;

- 1 “(h) Inpatient discharge date;
- 2 “(i) Type of discharge;
- 3 “(j) Diagnostic related group or diagnosis;
- 4 “(k) Type of procedure performed;
- 5 “(L) Expected source of payment, if available;
- 6 “(m) Hospital identification number; and
- 7 “(n) Total hospital charges.

8 “[2] *By July 1 of each year, the authority may request from ambulatory surgical centers licensed*
9 *under ORS 441.015 ambulatory surgery discharge abstract records covering all patients admitted dur-*
10 *ing the preceding year. Ambulatory surgery discharge abstract records must include information simi-*
11 *lar to that requested from general hospitals under subsection (1) of this section.*]

12 “[3] *By July 1 of each year, the authority may request from extended stay centers licensed under*
13 *section 2, chapter 50, Oregon Laws 2018, extended stay center discharge abstract records covering all*
14 *patients admitted during the preceding year. Extended stay center discharge abstract records must in-*
15 *clude information prescribed by the authority by rule.*]

16 “[4] (2) In lieu of abstracting and compiling the records itself, the authority may solicit the
17 voluntary submission of the data described in [subsections (1) to (3)] **subsection (1)** of this section
18 to enable the authority to carry out its responsibilities under this section. If such data are not
19 available to the authority on an annual and timely basis, the authority may establish by rule a fee
20 to be charged to each hospital[, *ambulatory surgical center or extended stay center*].

21 “[5] (3) The fee established under subsection [(4)] (2) of this section may not exceed the cost

23 “[6] (4) The authority may specify by rule the form in which records are to be submitted. If
24 the form adopted by rule requires conversion from the form regularly used by a hospital, [*ambulatory*
25 *surgical center or extended stay center*,] reasonable costs of such conversion shall be paid by the
26 authority.

27 “[7] (5) Abstract records must include a patient identifier that allows for the statistical
28 matching of records over time to permit public studies of issues related to clinical practices, health
29 service utilization and health outcomes. Provision of such a patient identifier must not allow for
30 identification of the individual patient.

31 “[8] (6) In addition to the records required in subsection (1) of this section, the authority may
32 obtain abstract records for each patient that identify specific services, classified by International
33 Classification of Disease Code, for special studies on the incidence of specific health problems or
34 diagnostic practices. However, nothing in this subsection shall authorize the publication of specific
35 data in a form that allows identification of individual patients or licensed health care professionals.

36 “[9] (7) The authority may provide by rule for the submission of records for enrollees in a
37 health maintenance organization from a hospital[, *ambulatory surgical center or extended stay*
38 *center*] associated with such an organization in a form the authority determines appropriate to the
39 authority’s needs for such data and the organization’s record keeping and reporting systems for
