(B) The parcels created by the proposed division are not smaller than the minimum size established under ORS 215.780; or

(C) A portion of a lot or parcel has been included within an urban growth boundary and redesignated for urban uses under the applicable acknowledged comprehensive plan and the portion of the lot or parcel that remains outside the urban growth boundary and zoned for exclusive farm use is smaller than the minimum lot or parcel size established under ORS 215.780, subject to paragraph (b) of this subsection.

(b) When a parcel for farm use is created in an exclusive farm use zone under paragraph (a) of this subsection, the partition must occur along the urban growth boundary and:

The Land Conservation and Development Commission, in cooperation with the State Department of Agriculture and other interested persons, may establish by rule objective criteria for identifying units of land that are not capable of producing adequate herbaceous forage for grazing livestock. In developing the criteria, the commission shall use the latest information from the United States Natural Resources Conservation Service and consider costs required to utilize grazing lands that differ in acreage and productivity level;

(E) The parcels for the nonfarm dwellings do not have established water rights for irrigation; and

(F) The parcels for the nonfarm dwellings are generally unsuitable for the production of farm crops and livestock or merchantable tree species considering the terrain, adverse soil or land conditions, drainage or flooding, vegetation, location and size of the tract. (6) The notice required in subsection (5) of this section shall specify that persons have 15 days following the date of postmark of the notice to file a written objection on the grounds only that the dwelling or activities associated with it would force a significant change in or significantly increase the cost of accepted farming practices on nearby lands devoted to farm use. If no objection is received, the governing body or its designee shall approve or disapprove the application. If an objection is received, the governing body shall set the matter for hearing in the manner prescribed in ORS 215.402 to 215.438. (F) Must comply with conditions established for:
   (i) The types of agri-tourism or other commercial events or activities that are authorized during each calendar year, including the number and duration of the agri-tourism or other commercial events and activities, the anticipated daily attendance and the hours of operation;

(13) For the purposes of subsection (11) of this section:

(a) A county may authorize the use of temporary structures established in connection with the agri-tourism or other commercial events or activities authorized under subsection (11) of this section. However, the temporary structures must be removed at the end of the agri-tourism or other event or activity. The county may not approve an alteration to the land in connection with an agri-tourism or other commercial event or activity authorized under subsection (11) of this section, including, but not limited to, grading, filling or paving.

A replacement dwelling may be sited on any part of the same lot or parcel. A dwelling established under this paragraph shall comply with all applicable siting standards. However, the standards shall not be applied in a manner that prohibits the siting of the dwelling. If the dwelling to be replaced is located on a portion of the lot or parcel not zoned for exclusive farm use, the applicant, as a condition of approval, shall execute and record in the deed records for the county where the property is located a deed restriction prohibiting the siting of a dwelling on that portion of the lot or parcel. The restriction imposed shall be irrevocable unless a statement of release is placed in the deed records for the county. A deferred replacement permit allows construction of the replacement dwelling at any time. If, however, the established dwelling is not removed or demolished within three months after the deferred replacement permit is issued, the permit becomes void. The replacement dwelling must comply with applicable building codes, plumbing codes, sanitation codes and other requirements relating to health and safety or to siting at the time of construction. A deferred replacement permit may not be transferred, by sale or otherwise, except by the applicant to the spouse or a child of the applicant.
