“(b) May apply only to housing developments containing at least 20 housing units;

“(b) Decrease the sales or rental price of affordable housing units in a development.

“(c) Build affordable housing units that are affordable to households with incomes equal to or lower than 80 percent of the median family income for the county in which the housing is built.

“(b) If a housing development described in paragraph (a) of this subsection has not been completed within the period required by the permit issued by the city, the developer of the housing development shall resubmit an application for a permit, as defined in ORS 227.160, as provided in ORS 227.178 (3), or, if such a permit is not required, a building permit application under the regulation, provision or requirement adopted by the city under subsection (2) of this section.

“(7)(a) A city that adopts or imposes a regulation, provision or requirement under subsection (2) of this section shall adopt and apply only clear and objective standards, conditions and procedures regulating the development of affordable housing units within its jurisdiction. The standards, conditions and procedures may not have the effect, either individually or cumulatively, of discouraging development of affordable housing units through unreasonable cost or delay.

“(b) Paragraph (a) of this subsection does not apply to an application or permit for residential development in historic areas designated for protection under a land use planning goal protecting historic areas.

“(c) In addition to an approval process for affordable housing based on clear and objective standards, conditions and procedures as provided in paragraph (a) of this subsection, a city may adopt and apply an alternative approval process for applications and permits for residential development based on approval criteria regulating, in whole or in part, appearance

“(B) The approval criteria for the alternative approval process comply with applicable statewide land use planning goals and rules; and
