(b) May apply only to [multifamily structures] housing developments containing at least 20 housing units;

(c) Must provide developers the option to pay an in-lieu fee, in an amount determined by the city or county, in exchange for providing the requisite number of housing units within the [multifamily structure] housing development to be sold or rented at below-market rates; and

(c) Build affordable housing units that are affordable to households with incomes equal to or lower than 80 percent of the median family income for the county in which the housing is built.

(b) If a [multifamily structure] housing development described in paragraph (a) of this subsection has not been completed within the period required by the permit issued by the city or county, the developer of the [multifamily structure] housing development shall resubmit an application for a permit, as defined in ORS 215.402 or 227.160, as provided in ORS 215.416 or 227.178 (3),

subsection (4) of this section shall adopt and apply only clear and objective standards, conditions

development based on approval criteria regulating, in whole or in part, appearance or aesthetics
that are not clear and objective if:

(A) The developer retains the option of proceeding under the approval process that meets the
requirements of paragraph (a) of this subsection;

(B) The approval criteria for the alternative approval process comply with applicable statewide
land use planning goals and rules; and

(C) The approval criteria for the alternative approval process authorize a density at or above
the density level authorized in the zone under the approval process provided in paragraph (a) of this
subsection.

(10) If a regulation, provision or requirement adopted or imposed by a city or county under
subsection (4) of this section requires that a percentage of housing units in a new [multifamily
structure] housing development be designated as affordable housing, any incentives offered under
