21 (b) To electrical installations made by or for a public utility, consumer-owned utility, telecom-
22 munications carrier or competitive telecommunications provider if the electrical installations are
23 an integral part of the equipment or electrical products of the utility, carrier or provider; or

24 (c) To any electrical generation plant owned or operated by a municipality to the same extent
25 that a utility, telecommunications carrier or competitive telecommunications provider is exempted
26 under paragraphs (a) and (b) of this subsection.

27 (6) A permit is not required:

28 (a) For the repair or replacement of light fixtures, light switches, lighting ballast, electrical

6 trial electrical equipment.

7 (B) "Installation or assembly" means the reassembly at a job site of equipment that is wired and
8 assembled at the factory and then disassembled for shipping purposes or of existing equipment that
9 is relocated. "Installation or assembly" does not include work involving field fabricated assemblies
10 or any other electrical product that is not an original part of the industrial electrical equipment.
11 "Installation or assembly" does not include the connection of industrial electrical equipment to a
12 power source.

13 (9) The provisions of ORS 479.510 to 479.945 and 479.995 do not apply to:

14 (a) Electrical installations and repairs involving communication and signal systems of railroad
15 companies.

13 (b) Notwithstanding paragraph (a) of this subsection, the board may require any of the products
14 described in paragraph (a) of this subsection to be subject to the certification requirements under
15 ORS 479.760 if the board determines that the product or class of products has presented a fire or
16 life safety hazard in use. A determination under this paragraph shall be effective as to any such
17 product or class of products installed after the date of the determination becomes final. The board
18 may reinstate any exemption removed under this paragraph if the board determines that the reasons

13 licensees shall furnish a list of the locations of 10-year old installations that they service.

14 (4) If, upon inspection of any tank, the new installation does not comply with the requirements
15 of the State Fire Marshal, the State Fire Marshal shall instruct the installer as to what corrections
16 are necessary for compliance with the State Fire Marshal's requirements. The installer of the new
17 installation shall, within the time set by the State Fire Marshal, not to exceed 60 days after notifi-
18 cation, notify the State Fire Marshal that the new installation complies with the requirements of the
19 fire marshal. If the installer fails to notify the State Fire Marshal, or the State Fire Marshal has
20 reason to believe that the corrections have not been made, the State Fire Marshal shall reinspect
21 the new installation and shall collect from the installer an additional fee of \$125. The user, not the
22 installer, shall pay the additional fee resulting from actions of the user that require correction to
23 achieve compliance with the requirements of the State Fire Marshal.

24 (5) A person who receives notice from the State Fire Marshal must correct any improper in-
25 stallation within the time set by the State Fire Marshal, not to exceed 60 days after receipt of the
26 notice.

27 (6) If the fees provided for in this section are due and payable and are not paid within 30 days
28 after service of written notice by the State Fire Marshal therefor, or if the installer fails to notify
29 the State Fire Marshal by the last day of the month succeeding the month a new installation is made
30 or a change is made requiring an inspection, the fees are delinquent and a penalty equal to the
31 greater of 10 percent of the fee amount or \$30, is imposed for the delinquency. The State Fire
32 Marshal shall collect all fees and penalties in the name of the State of Oregon in the same manner
33 that other debts are collected.

34 (7) The provisions of this section do not apply to liquefied petroleum gas installations if made
35 entirely within the jurisdiction of a governmental subdivision granted the exemption provided by
36 ORS 476.030 (3) and written evidence of the licensing of the installation by the approved authority
37 is submitted to the State Fire Marshal. The provisions of this section do not apply to LP gas in-
38 stallations made in manufactured dwellings [*or recreational vehicles*] that are constructed or altered
39 in accordance with applicable rules of the Department of Consumer and Business Services. **The**

44 (a) "Developer" means a person who contracts to construct, or arrange for the construction of,
45 new residential housing on behalf of, or for the purpose of selling the residential housing to, a spe-

9 residential housing may, at the time of providing a purchaser with a written contract, also provide
10 the purchaser with a list of features that may make residential housing more accessible to a person
11 with a disability. The list may include the features identified in the model list of features adopted
12 by the Construction Contractors Board by rule under ORS 701.547.

13 (3) The inclusion of a feature on the list supplied by the developer under subsection (2) of this
14 section does not obligate the developer to make the feature available to a purchaser. The list sup-
15 plied by the developer may specify for each feature whether the feature is standard, optional,
16 available on a limited basis or unavailable from the developer. If a listed feature is available from
17 the developer as an option or on a limited basis, the list of features may specify the stage of con-
18 struction by which the purchaser must submit to the developer any request that the residential
19 housing be constructed with that feature.

20 (4) This section, or the inclusion of a feature on the model list developed under ORS 701.547,
21 does not affect the requirement that installation of a feature comply with the state building code
22 or be approved under ORS 455.060.
