(1) The installer shall notify the State Fire Marshal, before the last day of each month, of all new installations made during the preceding month of containers or receptacles for liquefied petroleum gas, including installations for private homes and apartments. The installer shall certify on a form provided by the State Fire Marshal that all of the new installations are duly and properly reported. The State Fire Marshal may require that the notification include the location and description of the installation and the name of the user. All fees due and payable must accompany the notification. The replacement of empty containers or receptacles with other containers constructed in accordance with United States Department of Transportation specifications is not a new installation or change in the original installation that requires notification to the State Fire Marshal or necessitates further inspection of the installation. The State Fire Marshal shall collect from the installer an installation fee of $50 for each tank installed or for all tanks at the installation if the total combined capacity is 200 gallons or less. The State Fire Marshal or deputies of the fire marshal or assistants shall inspect a reasonable number of the installations and maintain a record of the inspections in the office of the State Fire Marshal.

(2) In addition to any installation or inspection fee, the State Fire Marshal may charge a plan review fee, not to exceed $100, for any liquefied petroleum gas container and receptacle plan review required under a uniform fire code prescribed by the State Fire Marshal by rule.

(3) After the initial installation, liquefied petroleum gas containers may be inspected once every 10 years except when changes have been made in the original installation. An installer making changes must notify the State Fire Marshal of the changes in the same manner provided in this section for new installations. The State Fire Marshal shall collect from the owner a fee of $50 for the inspection of each container. The manner of inspection, requirement of corrections, satisfaction of requirements and collection of fees due and payable must conform with the provisions of ORS 480.410 to 480.460 for new installations. Upon request of the State Fire Marshal, LP gas installation licensees shall furnish a list of the locations of 10-year old installations that they service.

(4) If, upon inspection of any tank, the new installation does not comply with the requirements
of the State Fire Marshal, the State Fire Marshal shall instruct the installer as to what corrections
are necessary for compliance with the State Fire Marshal’s requirements. The installer of the new
installation shall, within the time set by the State Fire Marshal, not to exceed 60 days after notifi-
cation, notify the State Fire Marshal that the new installation complies with the requirements of the
fire marshal. If the installer fails to notify the State Fire Marshal, or the State Fire Marshal has
reason to believe that the corrections have not been made, the State Fire Marshal shall reinspect
the new installation and shall collect from the installer an additional fee of $125. The user, not the
installer, shall pay the additional fee resulting from actions of the user that require correction to
achieve compliance with the requirements of the State Fire Marshal.

(5) A person who receives notice from the State Fire Marshal must correct any improper in-
stallation within the time set by the State Fire Marshal, not to exceed 60 days after receipt of the
notice.

(6) If the fees provided for in this section are due and payable and are not paid within 30 days
after service of written notice by the State Fire Marshal therefor, or if the installer fails to notify
the State Fire Marshal by the last day of the month succeeding the month a new installation is made
or a change is made requiring an inspection, the fees are delinquent and a penalty equal to the
greater of 10 percent of the fee amount or $30, is imposed for the delinquency. The State Fire
Marshal shall collect all fees and penalties in the name of the State of Oregon in the same manner
that other debts are collected.

entirely within the jurisdiction of a governmental subdivision granted the exemption provided by
ORS 476.030 (3) and written evidence of the licensing of the installation by the approved authority
is submitted to the State Fire Marshal. The provisions of this section do not apply to LP gas in-

that are constructed or altered in accordance with applicable rules of the Department of Consumer
