**A BILL FOR AN ACT**

Relating to highway speeds; amending ORS 810.180, 811.105 and 811.111.

**Be It Enacted by the People of the State of Oregon:**

**SECTION 1.** ORS 810.180 is amended to read:

810.180. (1) As used in this section:

(a) "Designated speed" means the speed that is designated by a road authority as the maximum permissible speed for a highway and that may be different from the statutory speed for the highway.

(b) "Statutory speed" means the speed that is established as a speed limit under ORS 811.111, or is established as the speed the exceeding of which is prima facie evidence of violation of the basic speed rule under ORS 811.105.

(2)(a) A designated speed established under this section is a speed limit if the highway for which the speed is designated is subject to a statutory speed limit under ORS 811.111 that is in addition to the speed limit established under ORS 811.111 (1)(b).

(b) A speed greater than a designated speed established under this section is prima facie evidence of violation of the basic speed rule if the designated speed is established for a highway on which there is no speed limit other than the limit established under ORS 811.111 (1)(b).

(3) The Department of Transportation may establish by rule designated speeds on any specified section of interstate highway if the department determines that speed limits established under ORS 811.111 (1) are greater or less than is reasonable or safe under the conditions that exist with respect to that section of the interstate highway. Designated speeds established under this subsection are subject to all of the following:

(a) The department may not establish a designated speed under this subsection of more than:

(A) Sixty-five miles per hour for vehicles described in ORS 811.111 (1)(b); and

(B) Seventy miles per hour for all other vehicles.

**NOTE:** Matter in **boldfaced** type in an amended section is new; matter *[italic and bracketed]* is existing law to be omitted. New sections are in **boldfaced** type.

1 (b) If the department establishes designated speeds under this subsection that are greater than  
2 65 miles per hour, the designated speed for vehicles described in ORS 811.111 (1)(b) must be at least  
3 five miles per hour lower than the designated speed for all other vehicles on the specified section  
4 of interstate highway.

5 (c) The department may establish a designated speed under this subsection only if an engineer-  
6 ing and traffic investigation indicates that the statutory speed for the interstate highway is greater  
7 or less than is reasonable or safe under conditions the department finds to exist.

8 (d) A designated speed established under this subsection is effective when appropriate signs  
9 giving notice of the designated speed are posted on the section of interstate highway where the  
10 designated speed is imposed.

11 (4)(a) The department may establish, pursuant to a process established by rule, a designated  
12 speed on a state highway outside of a city. The authority granted under this subsection includes,  
13 but is not limited to, the authority to establish different designated speeds for different kinds or  
14 classes of vehicles as the department determines reasonable and safe. A designated speed established  
15 under this subsection for any kind or class of vehicles may not exceed the speed limit for the high-  
16 way for that kind or class of vehicles as established in ORS 811.111 or, if there is no speed limit for  
17 the highway other than the limit established in ORS 811.111 (1)(b), may not exceed 55 miles per hour.

18 (b) The department may establish a designated speed under this subsection only if an engineer-  
19 ing and traffic investigation indicates that the statutory speed for the highway is greater or less  
20 than is reasonable or safe under conditions the department finds to exist.

21 (c) A designated speed established under this subsection is effective when appropriate signs  
22 giving notice of the designated speed are posted on the portion of highway where the designated  
23 speed is imposed.

24 (5) After a written request is received from a road authority for a highway other than a highway  
25 described in subsection (3) or (4) of this section, the department, pursuant to a process established  
26 by rule, may establish a designated speed for the highway. The authority granted under this sub-  
27 section includes, but is not limited to, the authority to establish different designated speeds for dif-  
28 ferent kinds or classes of vehicles as the department determines reasonable and safe. The authority  
29 granted under this subsection is subject to all of the following:

30 (a) The written request from the road authority must state a recommended designated speed.

31 (b) The department may establish a designated speed under this subsection only if an engineer-  
32 ing and traffic investigation indicates that the statutory speed for the highway is greater or less  
33 than is reasonable or safe under conditions the department finds to exist.

34 (c) The department may not make a final decision to establish a designated speed under this  
35 subsection without providing the affected road authorities with notice and opportunity for a hearing.

36 (d) A road authority may file a written objection to a designated speed that is proposed by the  
37 department under this subsection and that affects the road authority.

38 (e) A designated speed established under this subsection is effective when appropriate signs  
39 giving notice of the designated speed are posted on the portion of the highway where the designated  
40 speed is imposed. The expense of erecting any sign under this subsection shall be borne by the road  
41 authority having jurisdiction over the portion of the highway where the designated speed is imposed.

42 (f) The department, pursuant to a process established by rule, may delegate its authority under  
43 this subsection with respect to highways that are low volume or unpaved to a city or county with  
44 jurisdiction over the highway. The department shall delegate authority under this paragraph only  
45 if it determines that the city or county will exercise the authority according to criteria adopted by

1 the department.

2 (6) The department may override the speed limit established for ocean shores under ORS 811.111  
3 (1)(c) and establish a designated speed of less than 25 miles per hour on any specified section of  
4 ocean shore if the department determines that the speed limit established under ORS 811.111 (1)(c)  
5 is greater than is reasonable or safe under the conditions that exist with respect to that part of the  
6 ocean shore. The authority granted under this subsection is subject to all of the following:

7 (a) The department may make the determination required under this subsection only on the basis  
8 of an investigation.

9 (b) A designated speed established under this subsection is effective when posted upon appro-  
10 priate fixed or variable signs on the portion of ocean shore where the designated speed is imposed.

11 (7) A road authority may adopt a designated speed to regulate the speed of vehicles in parks  
12 under the jurisdiction of the road authority. A road authority regulating the speed of vehicles under  
13 this subsection shall post and maintain signs at all park entrances to give notice of any designated  
14 speed.

15 (8) A road authority may establish by ordinance or order a temporary designated speed for  
16 highways in its jurisdiction that is lower than the statutory speed. A temporary designated speed  
17 may be established under this subsection if, in the judgment of the road authority, the temporary  
18 designated speed is necessary to protect any portion of the highway from being unduly damaged, or  
19 to protect the safety of the public and workers when temporary conditions such as construction or  
20 maintenance activities constitute a danger. The following apply to the authority granted under this  
21 subsection:

22 (a) Statutory speeds may be overridden by a temporary designated speed only:

23 (A) For a specific period of time for all vehicles; or

24 (B) For a specified period of time for a specific kind or class of vehicle that is causing identified  
25 damage to highways.

26 (b) This subsection may not be used to establish a permanent designated speed.

27 (c) The authority granted by this subsection may be exercised only if the ordinance or order that  
28 imposes the temporary designated speed:

29 (A) Specifies the hazard, damage or other condition requiring the temporary designated speed;  
30 and

31 (B) Is effective only for a specified time that corresponds to the hazard, damage or other con-  
32 dition specified.

33 (d) A temporary designated speed imposed under this subsection must be imposed by a proper  
34 written ordinance or order. A sign giving notice of the temporary designated speed must be posted  
35 at each end of the portion of highway where the temporary designated speed is imposed and at such  
36 other places on the highway as may be necessary to inform the public. The temporary designated  
37 speed shall be effective when signs giving notice of the temporary designated speed are posted.

38 (9) A road authority may establish an emergency speed on any highway under the jurisdiction  
39 of the road authority that is different from the existing speed on the highway. The authority granted  
40 under this subsection is subject to all of the following:

41 (a) A speed established under this subsection is effective when appropriate signs giving notice  
42 thereof are posted upon the highway or portion of highway where the emergency speed is imposed.  
43 All signs posted under this subsection must comply with ORS 810.200.

44 (b) The expense of posting any sign under this subsection shall be borne by the road authority  
45 having jurisdiction over the highway or portion of highway where the emergency speed is imposed.

1 (c) A speed established under this subsection may be effective for not more than 120 days.

2 (10) A road authority may establish by ordinance a designated speed for a highway under the  
3 jurisdiction of the road authority that is five miles per hour lower than the statutory speed. The  
4 following apply to the authority granted under this subsection:

5 (a) The highway is located in a residence district.

6 (b) The statutory speed may be overridden by a designated speed only if:

7 (A) The road authority determines that the highway has an average volume of fewer than 2,000  
8 motor vehicles per day, more than 85 percent of which are traveling less than 30 miles per hour;  
9 and

10 (B) There is a traffic control device on the highway that indicates the presence of pedestrians  
11 or bicyclists.

12 (c) The road authority shall post a sign giving notice of the designated speed at each end of the  
13 portion of highway where the designated speed is imposed and at such other places on the highway  
14 as may be necessary to inform the public. The designated speed shall be effective when signs giving  
15 notice of the designated speed are posted.

16 (11) [*The City of Portland*] **A city** may establish by ordinance a designated speed for a highway  
17 under the jurisdiction of the city that is five miles per hour lower than the statutory speed. The  
18 following apply to the authority granted under this subsection:

19 (a) The highway is located in a residence district.

20 (b) The highway is not an arterial highway.

21 (c) The city shall post a sign giving notice of the designated speed at each end of the portion  
22 of highway where the designated speed is imposed and at such other places on the highway as may  
23 be necessary to inform the public. The designated speed shall be effective when signs giving notice  
24 of the designated speed are posted.

25 **(12) Notwithstanding ORS 801.430, as used in subsection (11) of this section, “residence**  
26 **district” includes territory not comprising a business district that is contiguous to a highway**  
27 **and has access to dwellings provided by alleys.**
