

Good morning,

I write to provide written testimony in support of HB4140. I am a survivor of traumatic brain injury and I know this bill will help improve our infrastructure in Oregon to better serve children and families.

This bill will help schools to be more prepared and understand how to make accommodations for those who have suffered a brain injury. More than anything, I know this will be able to improve outcomes Oregon's children so they can get back to school with the support they need for long-term success.

Thank you,
