

Dear Judiciary Committee members; HB4005 is an amazingly poorly crafted, ill-conceived assault on the rights of Oregonians. It contains many provisions that defy logic and seem to address non-existent problems under the guise of making Oregon "safer". It will do nothing of the sort-in fact it will most likely make Oregon more dangerous by severely limiting our ability to defend ourselves,our families and our homes. I am left to come to only two possible conclusions: this bill was written by people with no concept of self defense or by people wanting to punish Oregonians who have the audacity to own a firearm. Oh wait, maybe it's both! This bill will be disastrous and do nothing to improve the quality of life in our state. It is an affront to the rights guaranteed to us in both the US and Oregon Constitutions. Please waste little time in sending this bill to the shredder. Thank you

Ted Welter
