

To whom it may concern

I am opposed to this sloppy written, broad brushed, poorly thought out bill. We have laws to abide by concerning gun regulations. I wonder what priority Law enforcement in rural areas as compared to urban areas to enforce this bill. I am a hunters safety instructor with ODFW as a volunteer Cert. no 30007 it seems more practical to use what's now in practice[and cheaper] than to pass laws that will hard to enforce or will be under enforced.

Respectfully

Garland Wiese
