

These gun bill rights,  
(or lack of) are ridiculous. Once again, bad people with guns can and will always get around it and we won't have protection. This is LUDICROUS. I live in the woods with all the animals, and human ones too. So when a rattlesnake goes after my dogs or horses or cats or pig??? Do u yell at it and say hey" stop right there til I manage this safety device. ?? Are you silly??? OR..."Excuse me mr Robber with a record of being turned loose all the time,an armed, and on meth... Hold on dude my gun's locked up , as I go for it it gets wrestled away from me.. "  
Read the right to bear arms. You will create a criminal climate that can't be managed..  
Please pull your heads out of the sand. Before Russia says haha here we are dumassses.
