

To whom it may concern,

I'm writing you and the people who want to enhance and strip God given rights away from young adults who own firearms and who also sacrifice and protect our rights while in the military when under the age of 21.

Secondly, the lock up bill is very unconstitutional and denies the rights of legal and lawful Oregon gun owners from defending themselves in their own home against criminals who care less about me or if my gun is locked up .

I will not comply or adhere to unconstitutional laws made by far left anti gun democrats who understand nothing about guns, the US Constitution and the Bill of Rights.

Stop trying to kill or remove the second amendment from my way of life.

I again will never comply and will never live under a Socialist society. It's just the far left Bloomberg Democrats who want to disarm America to influence their power over all Americans; which is treasonous!
