

If our guns have to be locked up 24 hours a day, how are we supposed to protect ourselves from the criminal who breaks in with his gun pointed in our faces which he doesn't have locked up for 24 hours a day? Kate Brown can no longer be protected by people carrying a gun as far as I am concerned. She can carry a baseball bat with her. Come up with something else Democrats, come up with something else Democrats, maybe first like getting a brain. How do you expect people to defend themselves if their guns are locked up?

Come up with something better first get a brain.
