Subject: Please Support Cap and Invest Policy
Date: Saturday, February 1, 2020 10:57:05 AM

Dear Madam/Sir

I support a strong cap and invest policy for the protecting the environment in Oregon. As a retired nurse practitioner, active community volunteer, and parent for thirty years of two wonderful daughters raised in Beaverton, I am very worried about climate change and it's potential impact on our state and country. I support LC 19 to cap greenhouse emissions and invest in Oregon's future. I have voted consistently in Oregon elections since 1988. Thanks for your careful attention.
