Dear Senators,

I am a physician who worked with low income and vulnerable communities my entire career. Climate change is already adversely impacting low income and minority communities disproportionately. I support the strongest possible climate legislation that is both effective and just. This bill must assure that a significant share of the Investment Grants reach Oregonians who live in the most negatively affected communities to help them address climate change.

Time is of the essence.

Please improve this bill to make it effective in truly reducing greenhouse gases and mitigating the adverse effects of climate change in our beautiful Oregon.

Thank you,
