

Dear Chair Doherty and Members of the Committee,

As a parent, I oppose this bill because it is giving the government way to much power. It's not their job to be responsible of a child's physical/mental health nor is it appropriate or their business to impose on such a personal matter. They are overstepping. The government is not supposed to replace a parent and provide judgement over what condition a child might need assistance. They need to but out and stop imposing their will over the citizens of our country. We are turning more socialistic every day allowing the government to take authority on a person's livelihood and freedom for personal choice. This needs to stop!
