

Dear Chair Doherty and Members of the Committee,

As a parent, I oppose this bill because I do not want OHA and the Dept. Of Education to survey my children without my full informed consent, which would include a list of questions previewed by me ahead of time. This is government overreach for the purpose of healthcare intervention. I only take my children to physicians who have been screened by me for their competence, understanding of integrative medicine, and non-pharmaceutical treatment options. Parents should not be required to opt-out of surveys for their children that breach their family's medical privacy.

Regards,
