Chair Doherty and Members of the House Committee on Education:

My name is Lisa Allen, and I would like to urge you to support House Bill 4132, the Oregon Student Health Survey Bill, to give educators and health partners the necessary information to support the health, well-being, and academic achievement of Oregon youth.

While I am writing as an individual, my work on the Hillsboro School Board has given me firsthand knowledge of how impactful the survey data can be for decision-makers. Complete data can help school districts and educators see a complete picture of the needs of their students, to ensure all students have the support they need to be successful.

I know you all care as much about student success as I do, and I appreciate your consideration of this bill.

Best Regards,

Lisa Allen
