

HJR 202

The Oregon Psychological Association and its Legislative Committee offer their strong support of House Joint Resolution 202, amending the Oregon Constitution to "ensure that every resident of Oregon has access to cost-effective, clinically appropriate and affordable health care as a fundamental right."

In keeping with the ethical standards of our profession, our ceaseless efforts toward inclusion, and honoring the medical and psychological needs of all people, we believe the right to healthcare is a human right and should be upheld in the state of Oregon. We commend the state in its revolutionary initiative to ensure the medical and psychological needs of its citizens are met.
