

To the House Judiciary Committee,

Please say no to HB 4005. It is senseless and puts law abiding gun owners at risk. It would give real criminals more power and less responsibility for actions taken with stolen guns.

It also renders home defense firearms useless, again leaving law abiding gun owners at risk.

In fact this whole piece of legislation does nothing to promote gun safety and everything to punish gun owners. Disarming good citizens should never be the goal. Promote safety and gun education rather than installing punishment to those trying to keep up with the ridiculous crusade of disarming Americans.

A concerned citizen!
