

Dear Legislature's,

If you think you are making Oregonians safer by making nonsensical gun laws you must be living someplace other than my native home of Oregon. Why would you assume that good and honest Oregonians need to have the "the Nanny" tell me how to be reasonable with my right to own firearms? If my home is broken into when I am not in residence and like everyone I know keeps firearms secured, my rifle is stolen and reported to law enforcement, and involved in a crime why I should suffer consequences? You people need to get a grip and step back to see how foolish you are

Respects

Randy Black
Salem, Or.

As a veteran of the armed forces I resent you thinking I am not capable of owning firearms
