

Stop this Nonsense!!

These proposed laws show the ignorance of our legislators. Law abiding citizens are by nature "law abiding" and are not the problem. Until you legislators understand that "criminals" by nature don't obey the current law and laws you propose and will NEVER solve the problems you so desperately seek to fix.....you will instead add to the problem.

Challenge yourselves to get your heads on straight! More gun laws are not the answer. Stricter criminal laws are the answer!!!

Regards

Robert Smith
