I oppose HB 1530 and all so called "Cap and Trade" bills.

This bill, and others like it, will seriously endanger the way of life for MOST Oregonians. Please READ the bill and imagine you feed your family by driving a truck, working in a lumber mill, or even bagging groceries at a small Oregon logging town. This bill risks all these jobs and entire communities.

This bill will put Oregon out of work; your yes vote on HB 1530 will put you out of work!

Stand with Oregon's working class and stand in opposition of this bill!

I'm available for questions or comments.

Sincerely,
Adam Greenwald
