Subject: SB 1530 TESTIMONY IN SUPPORT OF STRONG CLIMATE ACTION
Date: Monday, February 3, 2020 5:54:47 AM

Greetings,

I'm a 4th generation Oregonian, retired, and have been a resident of Bend for the past 46 years. I come from a working class family (both Republicans and Democrats) who have always placed high value on our healthy environment and quality of life. I very much appreciate all the hard work you've put into the issue of climate change, arguably one of the most critical issues of our time. The current SB 1530 needs to be stronger to help assure reduction in pollution and also assure fairness to diverse populations throughout Oregon. Let's make Oregon a leader in transitioning away from fossil fuel dependency and make the necessary investments that lead to the green economy of the future.

Thank you very much for your consideration in strengthening SB 1530 to accomplish these objectives.
