Subject: SB 1530 Cap & Trade
Date: Monday, February 3, 2020 3:06:50 PM

I am writing in opposition to HB 1530. I have lived in Oregon my entire 50 years and have watched politicians attempt to tear apart this great state with their uninformed and self serving ideas time and time again. I am done. It has been proven this bill does nothing to help our residents or climate, and only serves to line pockets. It would devastate Oregon's economy in so many ways.

I am highly offended that those elected, by the people, to represent our best interest and our will have chosen to do whatever suits their own agenda. I hope that they will choose this time to stand up and do the right thing. If they feel strongly that this is something Oregonians want and need then they should choose to put it on a ballot. **This is not an emergency and SHOULD BE VOTED ON by those who are the most deeply affected.**

I believe that we are at a critical time and that this legislative session will determine the outcome. I believe that if our lawmakers choose to ignore the voices of their constituents *they will be replaced by candidates who are willing to listen and represent the will of the people.*

We the people are awake and aware, and are ready to take our own destiny in hand.

Again I OPPOSE HB 1530!
