Subject: SB 1530: STRONG CLIMATE ACTION TESTIMONY
Date: Monday, February 3, 2020 1:47:16 PM

Dear Chair Dembrow, Vice Chair Olsen and Members of the Senate Interim Committee on Environment and Natural Resources,

Hello, my name is Roger and I'm a teacher in Salem.

This is a plea to the people in state government who represent loggers, truckers, and pro-Trump conservatives/Republicans in general. Please look at the science on the adverse effects that climate change and pollution have/will have on EVERYONE, regardless of politics, religion, etc. Please take a longer view of the long term health and economic consequences of unchecked air and water pollution generated from oil/gas companies. It's not leftist propaganda...it's proven science, and if nothing is done to enact some environmental restrictions on these companies EVERYONE will face potential health and economic damage, for generations. Air, water, and climate do not pick sides. Mess them up and MAGAs will suffer as much as LGBTs.

Please stop thinking about quick profits and start putting the health and well being of YOUR FAMILIES first. Stop polarizing short term politics and start thinking bigger picture. Start spreading science education instead of misleading political messages.

Yours sincerely,
Roger Kidd
Salem, Oregon, 97306, United States
