**Cc:** [SENATORCHUCK RILEY](#)  
**Subject:** Senate Bill 1530  
**Date:** Tuesday, February 4, 2020 1:16:18 PM

---

Dear Chairperson Senator Dembrow  
Dear Sens. Olsen, Findley, Prozanski, and Roblan

I am writing in support of SB 1530 as a grandfather, father, and physician IN THAT ORDER.

#### MY PHILOSOPHY

We are morally obligated to provide for an environment which is livable for our offspring.  
Faith obligates us to make our planet safer.  
Doing nothing is not an option.  
No bill is perfect.  
Compromise is key.  
Everyone must be a change-agent stakeholder.  
We are all in this together.

#### MY BELIEFS

The vast majority of climate science is excellent science.  
Changing climates harms our physical and mental health.  
We humans can turn the tide.

Please approve SB 1530 for consideration by the entire senate.

Sincerely,

David A. Nardone, MD  
Hillsboro, OR 97124-5094  
Senate District #15 Senator Riley  
House District #30 - Representative Sollman
