RE: HB 4121 prohibits boarding federal prisoners

WE ARE A STRONG NO

This bill prohibits the Northern Oregon Regional Correctional Facility from contracting with Federal Immigration and Customs Enforcement, by appropriating \$1.64 million this biennium to make up for the loss of revenue. The state should not interfere with county contracts.

It seems the facility would prefer not to house these prisoners; however, they need the revenue. Asking the state to make up for lost revenue is wanting their cake and eating it too.

The facility is capable of earning its way and tax payers should not be asked to fund their laziness.
