Subject: Climate Change Legislation
Date: Wednesday, February 5, 2020 10:33:25 AM

To Whom It May Concern,

I live in a rural part of Jackson County in Oregon. The Oregon Senate is currently working on a weaker version of the 2019 HB2020 bill. Climate change is occurring at a faster rate than the models were predicting. The future does not look good for future generations.

More states are adopting cap and trade laws that are effective and economical. I urge the Oregon Senate to pass a strong greenhouse gas emissions bill that will be fair and effective for all of Oregon. This legislation will be important to help reduce the effects of severe climate change in the future.

Thank you,

Aaron Berger
