# Timeline

# Meeting Application Requirements

The SIA Application window is **March 2-April 15.**  
**This is the window to submit, not for approval.**

During the review process, if an application does not meet requirements according to the criteria, ODE will return the application, with a request for additional information or work to be done, and offer support for any technical assistance needed to meet application requirements. Ongoing participation by the applicant is expected in order to access the next steps in the application process.

**Bottom Line: ODE will work with you until we get it right to meet all the requirements. The only way you lose your non-competitive grant allocation is if you don't submit an application by April 15 or if you don't engage and complete work to meet application requirements that need attention after initial review.**

## STUDENT SUCCESS ACT

During the 2019 legislative session, Oregon's leaders made a real commitment to our children, our educators, our schools and our state with the passage of the Student Success Act. When fully implemented, the Student Success Act is expected to invest \$2 billion in Oregon education every two years; that's a \$1 billion investment in early learning and K-12 education each year. Of those funds, \$200 million goes into the State School Fund and the remaining is distributed into three accounts: the Early Learning Account, the Student Investment Account and the Statewide Education Initiatives Account.

At the heart of the SSA is a commitment to improving access and opportunities for students who have been historically underserved in the education system.

# SB 1520 : Technical Fixes to Federal Programs

## School Breakfast & Lunch Program

- Section 26 (1)
  - Revise the definition of “eligible student”.
  - ODE proposes to replace “a student who is eligible for free or reduced price lunches based on USDA current income guidelines with **“a student who is eligible under the national school lunch program or school breakfast program to receive lunch or breakfast at no charge or reduced price.”**

## School Breakfast & Lunch Program

- Section 30 (3)(a)
  - ODE proposes to replace current language: “ The actual amount that a student would have been required to pay for break or lunch, taking into consideration if the student qualified for a free or reduced price lunch” with **“The reimbursement rate established by the United State Department of Agriculture for reimbursable meals.”**

# SB 1520: Technical Fixes to Summer School

## Summer School Program for Title I Schools

- Section 44
  - Current program is set to start July 1, 2020.
  - This creates barriers for school districts who begin summer school programs as early as May.
  - Proposed change: Make effective date May 15, 2020.

# Future Legislative Considerations

## Student Investment Account (SIA)

- Definition for “economically disadvantaged students”
- SIA eligibility for:
  - State-sponsored Charter Schools (that are not able to apply independently);
  - Juvenile Detention Education Programs (JDEP) and Youth Corrections Education Programs (YCEP);
  - Long Term Care and Treatment (LTCT) Education Programs; and
  - Oregon School for the Deaf
- Statewide metric for student health and well-being
- Supporting the level of school district accountability and integrity to best support student success

# Future Legislative Considerations

## **Education Plan Identified by the Department: Section 25**

- LGBTQ2+ statewide student success plan

## **Increased Transparency and Accountability in the Public Education System: Section 25**

- The business plans for the Academic Return on Investment and Data Analytics tool may require additional resources for implementation

# Future Legislative Considerations

## Grant Management System: Section 25

- Authority to award state and federal grants
- The budget for the grant system may need to be revisited based on the negotiated contract with the vendor

## School Breakfast and Lunch Programs Expansion: Sections 26-32

- SB 1520 - revising definition of eligible student & changing the basis for reimbursement rate
- Forecasting the number of student meals served to estimate cost of state nutrition programs

# Future Legislative Considerations

## **Statewide School Safety and Prevention System: Section 36**

- Disclosure of personally identifiable information in an emergency situation

## **Latinx Student Success Plan: Section 38**

- Latinx students represent approximately 24 percent of the total student population in Oregon public schools. Due to the large number of students, the Latinx plan may need additional resources to fully implement the success strategies outlined in the plan.

## **Summer Programs for Title I Schools: Sections 42-44**

- SB 1520 - Move the effective date of the summer programs from July 1, 2020 to May 15, 2020

# Future Legislative Considerations

## Early Indicator and Intervention Systems: Sections 44-47

- In the 2020 legislative session, the Department is requesting to shift a portion of the budgetary resources from the \$1.0 million Grant-in-Aid to Operations to establish one position. This position will support the implementation of the \$2.8 million resources dedicated to the Early Indicator and Intervention System.

## Early Intervention (EI)/Early Childhood Special Education (ECSE): Section 52

- Reviewing the methodology for calculating the EI/ECSE current service level. Historically, the methodology has been strictly based on caseload growth without a consideration of the levels of services provided for eligible children. A new calculation may need to be implemented to ensure the EI/ECSE continues to be funded in accordance to the level it was established in the 2019-21 biennium.
