To whom it may concern,

A year after high school I had decided that I wanted to follow in my mother's footsteps and become a medical assistant. Knowing that she went to Concorde, that it was accredited, and therefore the G.I. Bill would pay for it, I signed up and went through their medical assisting program graduating in June 2015.

Being able to use part of my father's post 9/11 G.I. Bill at Concorde Career College has been extremely beneficial to me. I have been able to fulfill my dream by working in the medical field. I am currently a manager for Concentra Urgent Care Clinic. As a wife and young mother, I am grateful that I am able to provide for my family and child thanks to Concorde Career College and being able to use my father's VA benefits there.

Taking away this ability to use benefits at a school like Concorde for veterans and families could be detrimental. I was only ever able to go to college because of being able to use these benefits.

If you have any questions. Please let me know.

Thank you,

Zoey Leon
