

HOUSING ALLIANCE

February 6, 2020

Senate Committee on Finance and Revenue
Oregon State Legislature
900 Court Street NE
Salem, OR 97301

Dear Chair Hass, Vice-Chair Findley, and Members of the Committee:

I am writing to you today on behalf of the Oregon Housing Alliance to express our support for the provisions related to affordable housing and homeownership included in SB 1531 and its -1 amendments.

The Oregon Housing Alliance is a coalition of ninety organizations from all parts of the state. Our members have come together with the knowledge that housing opportunity is the foundation on which all of our success is built – individual success as students, parents, workers, and community members as well as the success of our communities. We represent a diverse set of voices including non-profit housing developers, residents of affordable housing, local jurisdictions, and organizations working to meet basic needs in every corner of our state. We believe that all Oregonians need a safe, stable, and affordable place to call home.

All Oregonians deserve a safe, stable, and affordable place to call home. Today, we simply don't have enough affordable homes for people who need them, and vacancy rates have dropped precipitously towards zero in communities across Oregon. People – our neighbors and members of our community – are struggling with homelessness, housing instability, rent burdens, and to make ends meet and put food on the table.

Local Option Affordable Housing Property Tax Exemption

Over the years, the Legislature has authorized several property tax exemptions for affordable housing, including ORS 307.515 and ORS 307.540. Local option property tax exemptions are one tool local jurisdictions can use to help incentivize and make financially viable affordable housing developments in their communities.

Property tax exemptions for affordable housing are critical for several reasons. Exemptions recognize the importance of affordable housing to our communities, and provide an on-going financial subsidy to the project. Without property tax exemptions, local affordable housing developers would need significant additional resources from the local, state, or federal government, in order to serve the lowest income members of our communities.

Communities across Oregon have adopted the property tax exemptions authorized under ORS 307.515 and ORS 307.540 to help ensure affordable housing is a part of our communities. Each affordable housing development that is built or rehabilitated using the exemption provides a safe, stable, and affordable home to people in the community with low incomes.

Recently, the federal government made a critical change that will allow for more people of different income levels to be served by affordable housing. This policy adopted by the federal government impacts the federal Low Income Housing Tax Credit (LIHTC), which is one of the main tools to develop affordable housing in our communities. The policy, called income averaging, allows a development to serve people with higher incomes (up to 80% of area median income) if the property also serves people with lower incomes, and the average income of the property remains at 60% of area median income.

This change is critical. We have the largest need for affordable homes for people with the very lowest incomes in our community (seniors living on social security, people experiencing disabilities, people experiencing homelessness). OHCS has already begun to implement the income averaging policy, and we need our local option property tax exemptions included in ORS 307.515 and 307.540 to align with these new criteria.

The language included in the -1 amendments would raise the income limits served by these exemptions from 60% of area median income to 80% of area median income to align with the new federal definitions, if and only if the project is using this new federal flexibility. The change would allow local jurisdictions to have choice and flexibility about whether to allow this new policy in their community.

We urge your support for this provision, currently included in sections 1 through 4 of the -1 amendments to SB 1531. We have noted for Legislative Revenue Office staff that there are some very minor changes that need to be made to address some minor definition issues.

Home Ownership Limited Tax Exemption (HOLTE) Technical Fix

In addition to the local option property tax exemptions authorized for affordable rental housing, the Legislature has also authorized the Home Ownership Limited Tax Exemption through ORS 307.651. This exemption provides a limited property tax exemption for housing for purchase, which helps support the development of affordable homeownership and helps homeowners with limited incomes to afford a home.

Today, this important program is helping to support people with moderate incomes to access homeownership. However, there is a need for a small technical change to the program.

The current state enabling statute requires that from application, the development be completed within two years, without exception. Unfortunately, there are circumstances in which an affordable housing developer can be working hard to build the affordable home, and the process from acquisition of the land to funding to construction may last more than two years.

We are supporting the proposed technical fix which will allow a local jurisdiction, on a case by case basis, to grant an extension of this two year timeline if the applicant can demonstrate progress. This technical fix is included in sections 7 – 10 of the -1 amendments.

We urge you to support these provisions in SB 1531 and its -1 amendments.

Thank you very much for your time, and for your service to our state.

Sincerely,

Alison McIntosh
