

HB 4005 only serves to restrict legal firearm use. HB 4005 and similar bills will cripple gun owners ability to participate in all sorts of legal firearm related activities. Everything from hunting to competition shooting sports. While sensational crimes where guns are used always make the news. The news never talks about how every day millions of firearms are used in safe, fun, educational, productive, and legal activities. Please do not punish 99.9% of firearm owners by enacting a law that won't do anything to stop crime. If criminals obeyed laws there wouldn't be any crime. HB 4005 only punishes law abiding citizens. Thank you for your time.
