

The Oregon reputation for housing discrimination is a well earned awful. This bill will take a small step in the right direction of uncovering where we must do more work, all of us. I am a member of First Unitarian Portland and the Interfaith Alliance on Poverty. I have learned of the vast consequences on realities like generational poverty when housing discrimination works its ugly ways. We need this bill to get at the root causes of our homeownership disparities along racial lines. Your support is important.
