

If you people pass this bill , especially another executive ruling from that Brown, who thinks shes president! First of all government has no power to touch this agenda what so ever! This was a right we have from before we had government. And furthermore we will form the biggest militia you have ever seen , including some sheriffs and alot of us ex military veterans. You can not protect anyone that locks their weapons as we would be shot first. This doesnt matter anyway, the tyranny is happening all over and our governor is in Bloomborgs pocket anyway , which is easy to prove! We have the power to replace all of the servants that are in government. We are not to be ruled by them , look at the constitution. Last of all the only reason a war has not crossed our borders is because other countries are afraid of us because we all do have guns and being American we would fight together. If Oregon is left alone on 2nd rights it will be smooth , but since Bloomborg is coming and brown is already bought by him we know whats up. Surprise us , stop !
