

To whom it may concern.

May it be understood that assuming criminals will automatically obey this law due to new language or a new legislative body authoring it is sorely misinformed. We have countless laws on the books already being disobeyed. What would make a legislative body so presumptive to assume this law will curtail criminal activity. Please enforce laws already on the books. I will assume if this passes and voters are disarmed, any harmed or killed as a result of being disarmed will be the responsibility of the legislature and they will assume full responsibility for any and all loss of life, bodily harm and any other related expenses.
