

So I want to tell you about a crime committed on my cousin Jama Marie Harms. She received a full scholarship to go to collage in La Grade Oregon in the mid 90s. Three men broke in through her bathroom window and beat her to death with a hammer. Evidence showed that she fought back rigorously because of the blood patterns throughout the apartment. She did not have a firearm in the apartment to defend herself. You can't ignore these kind of crimes like they don't happen and force people to lock up there defence weapon were it can't be used to defend there life.
