

Please consider how this bill will make women less safe. How can you justify taking money from people outside Oregon to help you pass laws inside Oregon? That sounds so wrong. As a mother of 3 girls and grandmother of 2 girls I find it appalling that you want it illegal to protect myself and my kids and yet you all in government have the protection of guns, no questions asked. Shame on you!!!

Plus statistics show plus common sense demonstrates that criminals will not follow this law, or any gun law. This isn't about teen Suicide but gun control. At least be honest about that. Please leave our gun rights alone and if you really want to help kids put your money into schools and mental health!
