

Dear committee members:

This is a dangerous bill to consider and I am asking that strong consideration be given to voting this bill down.

Holding someone accountable for criminal actions after having a weapon STOLEN, regardless of whether a weapon has a gun lock (easy to defeat) on it or not is frankly ludicrous.

What is being considered is turning regular law abiding citizens into criminals after someone has STOLEN a weapon. The thought process behind this type of bill is astounding to any rational human.

Regards

Dan Beebe
