

This bill's measures are entirely unproven and unsubstantiated to create its objectives, and creates only extreme and unreasonable punitive liability while eroding civil rights.

This bill not only forces you to lock up your self defense firearms, it punishes you even if you DO lock up firearms. While it penalizes gun owners if their firearms are stolen, it does nothing to penalize gun thieves.

The bill will devastate youth shooting programs and prevent young Oregonians from having access to firearms for defense of their families.

This measure is nothing but politicized rhetoric put down into law by grossly uninformed and negligently ignorant parties who have no idea what tragic circumstances they are creating.

Bring back rational thought to the State Legislature's legislative process, and stop this purely emotion hyperbole.
