

It seems very clear to me that if such a bill as this should become law, being able to protect your family, yourself with a firearm would become virtually impossible. Having a hand gun with a lock that requires both the time to locate the key, insert said key, (or combination), unlock said gun, find the ammunition and load the gun, greatly reduces its value as a means of protection.

Our rights to self protection will not be hand cuffed like this!

Passage of such a law will make criminals out of law abiding citizens, because We will Not place our selves in such stupid situations!

Please spend your efforts on enforcing current laws relating to firearms and dealing with the mental illness issues that are at the root of "the gun violence problem".
