

Dear Honorable Members of the House Judiciary Committee,

It is with great alarm that I am writing you to oppose HB4005 that apparently has been introduced into committee. I can't understand how anyone could think this bill is a good idea except criminals who want easy prey. Please do anything in your power to oppose this bill becoming law, for the sake of all law-abiding Oregon citizens. We are assured by the United States Constitution, 2nd Amendment that our right to bear arms will not be infringed. This is a blatant attempt to do just that.

Sincerely,

Dr. Steve Campbell
