

Dear Representatives,

Stop this foolish Bill (HB 4005) and stop it NOW! No criminal will pay it heed and those who break laws have never stopped at such before, why would they now? Burglary is illegal. Theft is already illegal. Murder is illegal.

You may add thousands of laws regarding this subject and criminals will only applaud you for rendering honest and law abiding citizens defenseless so these criminals may do their crimes more easily and without fear of being thwarted by anyone other than law enforcement. These personnel will be several minutes if not hours (as in many rural circumstances) from the scene thereby making their service useless.

Unless this...Bill was crafted to punish myself and firearm owners like me, there is no reason for it...NONE.

Quit spending time and resources on poorly thought out foolishness like HB 4005 and quit this before it goes anywhere and before law enforcement officials time and energy are WASTED trying to figure out ways to enforce this. And, while they are engaged in this STUPIDITY, you can be certain that REAL Criminals will be doing their thing-possibly to your friends, your relatives or even to YOU!

The old, old, (getting tired of repeating the obvious!!!) saying, "When guns are outlawed, only outlaws will have guns!"

STOP HB 4005.

In complete sincerity,

Eric Simpson
