

Why do the tyrants on this committee keep pushing anti-Second Amendment legislation? What problem are you trying to solve? You are sadly mistaken if you believe the citizens of Oregon will lead safer lives. The legislation harms honest, law abiding citizens without doing a damned thing to solve crime. All you can accomplish is to pass a law that violates the Second Amendment in the first place and can't be enforced in the second place. Damn your eyes. We'll see you in court.
