

This bill is unconstitutional in so many ways. I can only believe that you have ulterior motives and you think you can control the people of OREGON. There may be a lot of wimps and those easy to convince this will make them safe. You are only trying to make you safe? Your cap and trade bill will grow money for you to spend , but cost all of us a lot of money. Your deep decarbonization is a sham and can not work. I challenge you to read the report commissioned by you. You will make the lights go out to save us. Read this report:

[E3 Resource Adequacy in the Pacific-Northwest March 2019.pdf](#)

I know you won't or don't have the courage. How about this:

<https://www.ferc.gov/legal/staff-reports/2010-dr-report.pdf>

If you force this on the citizens you will be held accountable one way or another.
