

I don't understand why this bill is even under consideration. It makes self defense harder to achieve and simultaneously can make law abiding people criminals. Are you going to hire an army of bodyguards so we don't have to defend ourselves, I think not. I am a woman and using a gun is the best equalizer there is for my defense. There is not one thing in this bill for the actual criminals. Why would you make criminals of the law abiding? This whole bill is a farce.
