

As a service connected veteran who served my country, protecting your liberties, and freedom of speech, I urge you to oppose any and all bills that requires any and all weapons be secured with trigger locks, try and imagine how you would react to a burglar, or someone with a gun, points it at you, and you say" please let me unlock my weapon, and load it, so I can protect my family and myself,; do you actually think that person would allow you to do that??

No, you will be shot dead. Please thank the soldiers that gave their lives, protecting your liberties and freedom. Thanks for letting me discuss my feelings.
