

Good morning,

I am writing you to urge you to kill HB 4005 before it moves to the floor and if for some reason it makes it to the floor that you do the right thing and vote NO on it.

Not only is this bill unconstitutional because it denies me my right to self defense it risks making us targets of violent crime. This bill not only forces you to lock up your self defense firearms, it punishes you even if you DO lock up firearms. While it penalizes gun owners if their firearms are stolen, it does nothing to penalize gun thieves.

The bill will devastate youth shooting programs and prevent young Oregonians from having access to firearms for defense of their families.

This will NOT make our community safer it will embolden criminals and abusers and lead to an increase in violent crime. If you support this type of legislation you have blood on your hands and you are no better than violent criminals this bill protects.

Thank you
