

To whom ever,

Generation to generation of gun owners was taught how to handle m, how to protect and how to hunt! The story's that we share with our family's the guns that mean A LOT to us handed down, we will stand on OUR RIGHTS!!!

VERY Sick and tired of people that don't obey the laws of the land getting away with everything and all of us law abiding citizens are paying the price!!!!

Wake up and look around start talking to the ones that live the lifestyle not the big city folks that sit in their town houses or their wall-to-wall houses in a cities and complain about us gun owners that protect our KIDS our property/land!

All of our kids have been raised around guns knowing when to touch them and not to touch them we have a 13-year-old son that if we were not home can handle a gun and take care of this house with no problems! I think God every day that they can because at least I don't have to worry about some person that cannot obey the laws come to our home and try to thief or harm my kids it will not happen!!

WE THE PEOPLE, IN GOD WE TRUST.
