

I am against this bill. Locking up guns will not allow me to use it for self defense in the event of a home invasion. Locking up gun regulations will not stop criminals or gangs from committing their usual crimes. They do not care about laws. They can buy them on the black market or simply steal them from our locked gun cabinets. Strengthen the sentences for gun crimes. Hold parents whose child takes their guns and goes on a killing spree accountable. There are more law abiding gun owners than there are individuals who commit mass shootings. Why do we have to be punished for their actions?
